Subject: Robin

Hi to all,

Robin went home yesterday. The boys took her to her house. They got her into the house. We were unable to afford to get the ramps built at this time and we are on the look out for a one story house for rent or to buy for her. One without steps. She was so happy that she was going home, I think she was calling everyone before the boys got there to tell them. By the end of next week she should have in her big check and so we are all looking. Aaron is going to live with Rachel, Bill, and Patty through the week and go home on the weekend to visit with Robin and the older boys. Rachel is sending him to school with her kids. We all think this is better because of the problems he had in school last year. Robin dosen't need any stress at this time, and Rachel has temp. gardienship of him so that she can take care of any problems without concerning Robin. Patty is doing ok. Mike will be home in a couple of weeks. Patty is still having problems with her legs swelling bad, but she does or helps with the cooking and child care at Rachels. Love to All Donna

=====

Have a nice day, Donna

Subject: Prayer request please: sue

Good day everyone i know i have not been online much in the past little bit, I have been spending time with my grandmother in Lexington at diff hosp. one hosp done all they could then sent her to be in a hospice unit were all they could do was keep her pain free. we slowly had to just stand by and wacth her die, that is the hardest thing i have ever had to do. Thanks to the GOOD LORD she is now at rest, we lost her last night 7-13-2003 about 9 -920 pm i took 20 mins for her last air to leave her body. I will always miss her but i am glad she is resting now. I don't know when i will be back online we have to go to greensburg ky to put her away next to her husband so i will be gone for a few days. I am having a real hard time with this all and i have been ask to be a pallbearer and i just don't know how that will work, but she ask that all the 2 born oldest g-children in each family do it , so i NEED STREANTH . I need to do it simply because she wanted me but it will be so hard. I spent the last few days going up and trying to get her to eat she finally just stopped it all , everything begin to shut down. So i am asking everyone to remember out family in PRAYER we need it to help get through this. and i will be back online soon. I love and Miss everyone. write me soon. Love sue

SEPTEMBER 2003

UAW GM AND DELPHI REPORT

Contract Highlights

Health Care Protected

No cost-shifting, no benefit takeaways. New health care benefits.

Economic Gains

The average production worker will realize additional income of $18,500 over the life of the agreement, including a $3,000 signing bonus, a performance bonus in the second year and wage raises in the third and fourth years.

Pensions Improved

Pensions increased for all who retire under the proposed new contract. Current retirees will receive four lump sums, one in each year of the agreement, and vouchers worth $1,000 toward the purchase of a new GM vehicle in the first and third years of the agreement.

Health and Safety

Gains in ergonomics, exposure to metalworking fluids and chemicals, air quality and hearing protection; GM and Delphi earmark record $9.8 million to fund health-related research.

New Holiday Added

The new agreement provides 67 paid holidays, including new Election Day holiday in November 2005.

Skilled Trades

Special 30-cents-per-hour wage adjustment beginning in the first year of the agreement; 2,250 apprentices at GM and 750 apprentices at Delphi will be added. New plan to retain and gain warranty work.

UAW President Ron Gettelfinger, Vice President Richard Shoemaker and the UAW GM bargaining team.

This report describes highlights of the agreement negotiated by the UAW GM bargaining team. Each article covers contract language which commonly applies to UAW GM and UAW Delphi workers unless identified as specific to UAW GM or specific to UAW Delphi.

Bargaining for America

Contracts Deliver on Health Care Pledge, Economic Gains

On the opening day of 2003 auto negotiations, UAW President Ron Gettelfinger stood in front of a banner that proclaimed "Bargaining for America." The UAW was sending a message both to the companies and to all working Americans: The gains and protections won by our union help raise the standards for all workers. This agreement carries on that tradition.

At a time when most employers are shifting the rising costs of health care onto the workers, Gettelfinger has publicly and repeatedly sent a clear message to the auto companies: no cost shifting or benefit reductions. This four-year contract delivers on that promise and more for General Motors and Delphi workers and retirees. It includes economic gains and improved pensions, and protects the many hard-won achievements of previous contracts.

These contract talks were the first time the UAW concluded negotiations with each of the Big Three within days of their common expiration dates.

Led by Gettelfinger and UAW Vice President Richard Shoemaker, the negotiating committee, co-chaired by Mark Hawkins, Local 598, and Clyde Sims, Local 913, faced difficult and demanding challenges.

"This bargaining committee put forward a tremendous effort to reach fair and equitable agreements," said Shoemaker. "Once again, the interests of both GM and Delphi workers were protected."

"I commend Vice President Shoemaker's team, the International Union staff who assisted the negotiators and this national negotiating committee who devoted many long hours to the bargaining process," said Gettelfinger. "We want to thank the membership and local union leadership for the solid support given to the UAW's bargaining team throughout these negotiations. With teamwork in the leadership and solidarity in the ranks, we accomplished our major bargaining goals."

New Contract Delivers Solid Economic Gains For GM and Delphi Workers

In a tough economic environment, the proposed agreement delivers solid economic gains to UAW workers at General Motors and Delphi through a combination of lump-sum payments and base wage increases.

UAW-represented GM and Delphi workers who are on the active roll on the effective date of the agreement will receive an up-front payment of $3,000. This settlement bonus will be paid in the second pay period following official notification of the agreement's ratification. In the second year, workers with seniority as of Sept. 20, 2004, will receive a lump-sum performance bonus equal to 3 percent of qualified earnings (including base wages, COLA, overtime, shift and seven-day operator premiums, call-in pay, vacation, holiday and other paid time off) over the preceding 52 pay periods.

Base wages will be increased by 2 percent effective Sept. 19, 2005, and by 3 percent effective Sept. 18, 2006.

Tool Allowance Adjustment for Skilled Trades

Skilled trades members will receive a **tool allowance adjustment** of 30 cents an hour effective with the pay period beginning Sept. 15, 2003. This is the first such adjustment since 1997.

Cost of Living Protection Maintained

The proposed 2003 agreement maintains the improved COLA protection that was negotiated in 1999. Future COLA adjustments will be based on the CPI-W for all items less medical care, to more closely reflect the actual rate of inflation faced by GM and Delphi families. In recent years, the impact of medical care on the overall inflation rate has been about 1/10 of a percentage point.

Negotiators addressed the issue of "legacy costs" with a COLA diversion of 2 cents per quarter that will secure pension improvements for current retirees and surviving spouses.

Under the proposed agreement, $2 of the current $2.05 COLA float will be folded into base rates. Your bargaining team resisted management attempts to take advantage of a decline in the cost of living in the final quarter of the 1999 agreement, which would have reduced COLA by 3 cents.

Independence Week Shutdown Pay

The proposed agreement maintains the Independence week shutdown at GM and Delphi. During the week of the Independence Day holiday, seniority UAW workers will receive four days (32 hours) off at

EXAMPLES OF TOTAL HOURLY WAGE INCREASES

	Janitor	Assembler	Tool & Die
Base Rate - Contract End	**$22.95**	**$23.58**	**$27.70**
Skilled trades tool allowance			.30
COLA Fold-In	2.00	2.00	2.00
New Agreement Base	**$24.95**	**$25.58**	**$30.00**
Beginning COLA float	.05	.05	.05
1st-year COLA	.32	.32	.32
End 1st-year Base Rate plus COLA	**$25.32**	**$25.95**	**$30.37**
2nd-year COLA	.40	.40	.40
End 2nd-year Base Rate plus COLA	**$25.72**	**$26.35**	**$30.77**
3rd-year 2% base rate increase	.50	.51	.60
3rd-year COLA	.44	.44	.44
End 3rd-year Base Rate plus COLA	**$26.66**	**$27.30**	**$31.81**
4th-year 3% base rate increase	.76	.78	.92
4th-year COLA	.36	.36	.36
End 4th-year Base Rate plus COLA	**$27.78**	**$28.44**	**$33.09**

(Projected COLA assumes annual nonmedical inflation averaging 2.2%)

Performance Bonus Examples

(Payable Week Ending October 17, 2004)

Janitor	Assembler	Tool & Die
$ 1,930	**$ 1,970**	**$ 2,310**

Based on 3% of earnings for a standard 2,080-hour year plus 10% overtime, with projected COLA adjustments based on average annual inflation of 2.2%.

their regular rate of pay, including shift and seven-day operation premiums. Eligibility for Independence week shutdown pay is unchanged from the prior agreement.

Over the term of the proposed agreement, the 32 hours of shutdown pay are worth an average of $896 each year for a typical assembler.

Profit Sharing

The UAW General Motors and Delphi profit-sharing formula will continue unchanged.

Projected Total Gains

Total economic gains from the proposed agreement add up to more than **$18,500** for a typical assembler, based on a standard, 2,080-hour year. That figure includes the $3,000 settlement bonus and 3 percent performance bonus, Independence week shutdown pay, scheduled base wage increases and projected cost-of-living adjustments. It factors in the impact of pay gains on shift premiums and paid time off, but not on overtime pay.

Card Check Gained In Neutrality Pledge

UAW negotiators gained an important addition to the GM corporate neutrality letter first achieved in the 1999 national agreement. GM agreed to a card-check recognition process for hourly workers seeking union representation in its U.S. manufacturing faciliities.

Under a card-check process, the company agreed to recognize and bargain with a union whenever a majority of workers has signed union recognition cards.

In addition, GM and Delphi have reaffirmed their commitments to using suppliers that are good corporate citizens. GM and Delphi wll continue to urge their suppliers to treat their employees fairly, to provide them with good wages and benefits, and to provide a safe workplace. GM and Delphi will also inform suppliers of their "positive and constructive relationship" with the UAW and affirm their belief that all employers should "fully respect the right of employees" to seek union representation.

GENERAL WAGE INCREASES

		$36.17 — $36.49	$1.09

UAW Delivers on Health Care Pledge

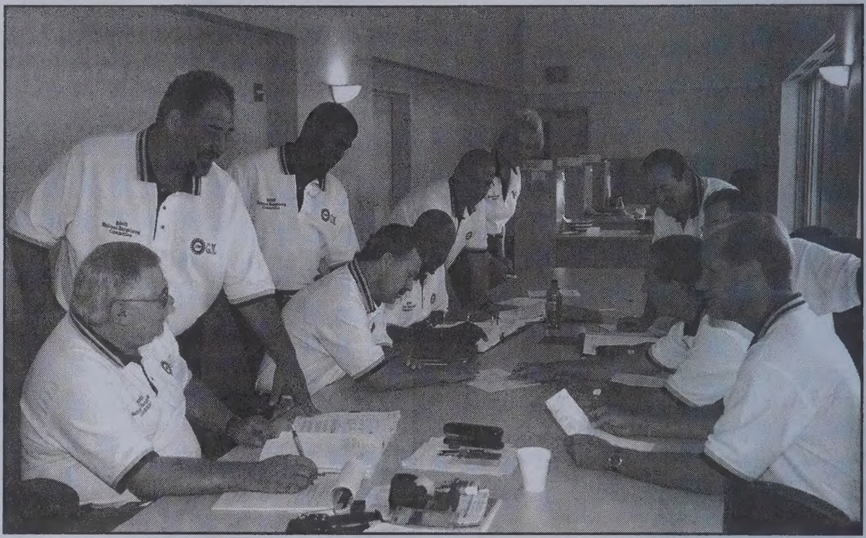
Our UAW bargaining teams in the auto industry set a clear goal at the very beginning of these negotiations: no cost-shifting in health care.

Thanks to exceptional solidarity and resolute bargaining, we were able to achieve this goal and more.

At a time millions of workers are facing health care cutbacks, UAW members at GM and Delphi will retain full employer-paid health care: no cost-shifting, no benefit takeaways.

And despite an extremely challenging bargaining environment, we were able to add significant health benefits for GM and Delphi workers in preventive care, testing and screening, vision and dental care, well baby care and other areas.

The enhanced health benefits in the proposed agreement include:



Retaining and improving health benefits for UAW members at GM and Delphi were top priorities of the UAW GM National Negotiating Committee.

Rolling Enrollment in 2004; Employees Can Choose Core/Non-Core Coverages

Beginning in February 2004, workers will be able to change their enrollment options at any point during the year. Following the enrollment, the employee must remain in the option chosen for at least 12 months before changing to another one. An earlier change is allowed if there is a qualifying event as defined by federal law.

In making their selection, employees may have different plan years for each benefit. That is, the employee may elect in October to change to a different health plan and then three months later change dental plans. Each plan's 12 months is counted separately. If plans are added or deleted from the Informed Choice Option, affected employees will be given an opportunity to change plans at that time.

When a worker or dependent loses coverage under the terms of the collective bargaining agreement, she or he will now be able to choose among the available benefits rather than being required to take all of them. For instance, a worker whose spouse has comprehensive health benefits may chose to continue and pay for only the dental benefits under COBRA. Until now, if the employee wanted to continue dental, he or she also had to pay for basic health benefits.

Traditional Plan Updated

The Traditional Plan will be updated to reflect changes in the health care delivery system. Effective July 1, 2004, or as soon as practicable thereafter, the Traditional Care Network, as it will be called, will begin utilizing network discounts to provide more cost-effective care while continuing to meet UAW broad access standards.

Under the new Traditional Care Network, the covered services will be paid 100 percent if provided by a network provider. Services provided outside the network are covered at 90 percent Members are protected from high out-of-pocket costs through a $250 annual maximum for individuals and a $500 annual maximum for families. Members are held harmless from balance billing by network and par providers.

As with the current plan, office visits are not covered. However, members who see network providers will receive full adult and child immunizations, the six well baby examinations and all screenings. In addition, network discounts mean members will pay less for office visits.

HMOs and PPOs Saved

In the past several years, workers, retirees and their families have experienced disruption in their medical care because their health plan was no longer offered due to cost increases demanded by those plans. In a significant victory, the bargaining committee was able to convince the corporation that such disruption did not promote good health. The corporation was concerned about the increasing cost of those health plans. In exchange for limited changes in the PPO and HMOs, the corporation has agreed that no PPO will be lost during the term of this collective bargaining agreement. Protection for HMOs has been extended through 2005.

As part of the agreement, all PPOs will be brought to the 50 percent co-insurance level for office visits. In addition, PPOs will be restructured on narrower networks beginning in 2005.

All HMOs will be brought to the $10 office visit co-payment and the $5/$10 drug co-payment level in 2004, and beginning in 2005, the mail order drug co-payment for Traditional and PPO plans will increase $3 to $5.

This agreement notwithstanding, the union and corporation will still take a hard look at any health plan that proposes significant rate increases, and may – by mutual agreement – discontinue that plan.

Fitness and Health

A Lifesteps pilot program offering wellness classes and education designed to help people keep fit and healthy will use corporate funds to make the program permanent and expand it from Flint and Anderson to all GM locations.

Classes will be offered on weight management, stress and nutrition. People who are assessed to be significantly at risk – as evidenced by having five or more risk factors on a health risk assessment (HRA) survey – will be given a voucher covering 50 percent of the cost of an office visit if they are in the Traditional Plan.

Active and retired workers in southeast Michigan will be able to join select fitness centers at a discount. If the effort is successful, it can be expanded to other areas.

Delphi has agreed to explore options on how best to promote fitness.

HMO Coverage

The new agreement will eliminate the "48-month rule" restricting new employees to HMO coverage for the first four years of service.

PPO Networks Restructured

The networks of the current PPOs will be restructured effective Jan. 2005. The networks will consist of hospitals and physicians that have demonstrated quality outcomes, best-practices and cost-effectiveness. Using these selection criteria, it is expected the networks will have 70-75 percent of hospitals and 25-35 percent physicians in a given service area.

Integrated Care Management Program

The parties have committed to implementing a state-of-the-art care management program designed to reduce fragmentation in the Traditional and PPO delivery systems. The goals of the integrated program will be to keep healthy people healthy, help those with chronic problems manage them better, and assist those with acute health needs make better informed decisions. Implementation of a new program is tentatively scheduled for January 2005.

Delphi and the union will review existing health care management programs, such as Blue Cross Blue Shield of Michigan's Blue Health Connection, for use with its health plans.

Prescription Drugs

One of the most contentious issues in benefits during this round of bargaining stemmed from the rising costs and utilization of prescription drugs. The corporation pushed to significantly increase the co-payments an employee or retiree pays for prescription drugs and to restrict access to certain high-cost drugs. Your negotiators were able to resist these efforts.

Prescription Drug Co-payments

Prescription drug co-payments will be updated consistent with inflation. In 1969, when the standard prescription drug program was introduced, co-payments were $2; this was updated to $5 in 1985. Beginning January 2004, the co-payments for actives and future retirees for retail drugs will be $5 for generics and $10 for brands for the Traditional, PPO and HMO health plans. Co-payments for those already retired will remain at their current levels. The co-payment for those using the Mail Order Program will increase to $5 for active and retired members in January 2005.

Mandatory Mail Order For Certain Drugs

Beginning January 2004, the use of mail order will be mandatory for an active or retired member using certain mutually agreed upon "maintenance" drugs for chronic conditions (such as hypertension, diabetes, high cholesterol). The current maintenance drug list can be found in Article III of Exhibit B of the collective bargaining agreement. Members and their families will be able to save significant out-of-pocket costs by using the Mail Order Program since they will only be paying one $5 co-payment for a 90-day supply of drugs. A member choosing to purchase these maintenance drugs at a retail pharmacy will be responsible for the full cost of the drug at the company's discounted rate. Under the Mail Order Program, a person may get a prescription and two refills at a retail pharmacy before switching to the mandatory Mail Order Program.

Mandatory Generics Program

More than 90 percent of our members already obtain identical generic drugs when there is a choice between a generic and a brand drug. The current Generics Substitution Program will be modified. If a member presents a prescription for a brand drug when an equivalent generic is available, the member will pay the $10 brand co-payment and an additional $10 sanction. The pharmacy benefit manager will contact the physician and, if it is determined that the brand is medically necessary, the $10 sanction will be automatically refunded. If it is determined that no medical necessity exists, the member can switch to the generic version and pay the lower co-payment or continue using the brand and pay the generic co-payment and the difference in program costs between the generic and the brand. There will be an appeal process if a member disagrees with the medical necessity determination.

Joint Review of Drug Prescribing and Review of New Drugs

The union expressed concern about the billions of dollars spent in marketing drugs to physicians, and the use of rebates and other questionable schemes by pharmacy benefit managers (PBM) to promote particular drugs that may not be the most appropriate for a particular patient.

The corporation expressed concern about the continuing high level of inflation in the prescription drug program. In the end, the parties agreed that they would meet regularly to evaluate a variety of possible interventions in the hope of addressing these problems. Implementation of any program, however, can only take place by joint agreement.

The parties will also review drugs as they are introduced on the market to determine whether or not they should be included in the prescription drug program. In addition, new drugs will automatically be included in the program unless there is a mutual decision to exclude them.

Preventive and Immunizations

Effective January 2004 coverage for childhood immunizations is being improved in the PPO plan.

At the same time the plan will provide for one dose of pneumonia vaccine for adults over age 65 and a tetanus diphtheria (td) booster vaccine once every 10 years for those over age 18. All these vaccines will be made available from panel providers in the Traditional Care Network once the plan is implemented later in 2004.

Follow-up rabies vaccine will be covered on an outpatient basis.

Well Babies

In-network PPO coverage will expand to include full coverage for six paid office visits for well babies up to the first birthday. The $100 well baby cap will be eliminated.

Vision Improved, Eye Surgeries Covered

For the first time, LASIK and similar types of corrective eye surgeries will be covered under the vision benefit. $295 will be paid toward the cost of corrective surgery.

Frame allowances have also been increased to $80 retail value from $60 and daily and extended wear contact lenses from $75 to $80. Enhanced network discounts will also be available for oversized lenses, coatings, standard progressive lenses and other vision services options.

Networks to be Revised Under Pharmacy, Vision

The union and corporation have tentatively agreed to revise the networks under both the pharmacy and vision programs. This will allow the programs to take better advantage of volume discount pricing while maintaining high levels of access to the program.

Hearing Benefit Updated

Efforts to improve the hearing aid benefit will continue with discussions during the term of the agreement.

Other improvements will go into effect beginning January 2004. These include covering ear molds in full for children, four molds/year for children under age 3, and two/year for children 3 years and older. Diagnostic analysis of cochlear (inner ear) implants will be covered and audiologic rehabilitation will be covered in full as long as measurable and positive functional change is noted within a reasonable period of time.

Dental Improvements

The annual maximum for dental exams and services will increase $100, to a total of $1,700 effective Jan. 1, 2005. For orthodontia, the maximum will increase $200, to $2,000, effective Jan. 1, 2005. The proposed agreement will also include full coverage for outpatient dental surgery in both Traditional and PPO plans.

Dental benefits will continue while an employee is on layoff.

Contraceptives to be Covered

In a victory that was many contracts in the making, UAW women finally will have contraceptive coverage available through the pharmacy and health benefits. Under the terms of the tentative agreement, prescription medication and devices will be covered as part of the pharmacy benefit or medical benefit as appropriate.

Select Professional Services Covered

The following professionals will now be covered under the Traditional and PPO plans. Coverage should reduce the number of claim denials members have had because the professions were not specifically listed as covered:

- Certified registered nurse anesthetist
- Anesthesia assistant
- Physician assistant (technical surgical assistant)
- Certified nurse midwife
- Clinical nurse specialist

In most cases, these professionals must work under the supervision of a physician to have their services covered and they cannot bill independent of the physician. Nurse midwife services are only covered in-patient or at a hospital birthing center.

New Diagnostic/ Treatment Benefits

The following diagnostic and treatment services will be covered under the Traditional and PPO plans effective January 2004:

- MRI. The two per condition limit has been increased to three and in-patient MRIs will not count toward the three.
- Hyberbaric oxygenation. Coverage for treatment of acute conditions, such as carbon monoxide poisoning and the "bends," will be implemented in January. Use for treating chronic conditions such as diabetic wounds will be implemented once an integrated care management program is in place and use can be effectively monitored.
- Outpatient pulmonary function test. Beginning next year, this test will be covered in outpatient facilities such as emergency rooms for those with severe asthma, breathing difficulties or acute lung conditions.
- The issue of injectable drugs will be discussed during the period of the collective bargaining agreement. Until the parties can work out a policy on this issue, the corporation has agreed to cover those injectables that are an essential part of another procedure, such as a stress test.

Community Health Care Care Initiatives

The parties renewed their commitment to Community Health Care Initiatives at Flint, Mich., Anderson, Ind., Warren-Youngstown, Ohio.

Retirees Maintain Protection from Medicare Part B Premium Increases

As in the past, the corporation will pay the Medicare Part B premium increases based on the lesser of actual premium costs or the projections of the Center for Medicare and Medicaid Services. The current premium level is $58.70 and is projected to increase as follows: $65.90 effective Jan. 1, 2004; $68.60 effective Jan. 1, 2005; $72.20 effective Jan. 1, 2006, and $76.20 effective Jan. 1, 2007.

Retirees over age 65, surviving spouses who are enrolled in Medicare Part B and persons who have been receiving Social Security Disability Insurance Benefits for 18 months are eligible for the Part B reimbursement.

Group Insurance Benefits Improved

The UAW bargaining team at GM and Delphi has maintained our existing high level of disability and group insurance coverage, and, in fact, won important improvements in the Group Insurance programs. The improvements include broader family coverage eligibility, some shorter waiting periods and new schedules for increased optional coverages.

Survivor Benefits

Survivor Income Benefit Insurance (SIBI) will be increased by $50 per month to $650 per month under the proposed agreement, and the Transition Bridge Benefit (24 months) will be increased to $650 per month.

Sickness and Accident and Extended Disability Benefits

All workers will receive a substantial increase in Sickness and Accident Benefits as a result of negotiated increases in the base hourly rate. Benefits under Basic Life Insurance and Extra Accident Insurance will also increase (see chart).

In addition, the corporation will implement a voluntary employee-paid Extended Disability Benefits (EDB) group benefits plan for employees with fewer than 10 years of service.

Physician Assistants can now give medical certification for Sick Leave and Extended Disability (doctor's approval).

Exam Mileage Reimbursement Increased

Mileage reimbursement will increase to 36 cents per mile for any worker whose residence is more than 40 miles one way from an examination site.

Optional Life Insurance

Two new schedules will be added to Optional Life Insurance: $175,000 and $200,000.

Dependent Life Insurance

Five new schedules will be added to Dependent Life Insurance:

$40,000 spouse, $15,000 dependent
$45,000 spouse, $18,000 dependent
$50,000 spouse, $20,000 dependent
$60,000 spouse, $24,000 dependent
$75,000 spouse, $30,000 dependent

For UAW GM workers, there will be a five-month waiver on premiums for Dependent Life Insurance.

Personal Accident Insurance Improved

Beginning with the new contract, if an employee dies, the survivor will be able to continue the Personal Accident Insurance policy.

The child care benefit has been improved so that the insurance will pay 5 percent, up to $6,000, for child care services for a child whose parent dies, for up to four years. The benefit is for children under age 13.

Deductions Now Allowed

Dependent and Optional Life Insurance, as well as Personal Accident Insurance, deductions may now be deducted from Sickness and Accident, SUB and Extended Disability benefits.

Repatriation

The repatriation benefit has been improved from $2,500 to $5,000.

EXAMPLES OF INSURANCE BENEFIT INCREASES

The table below illustrates the benefit improvements payable to a typical worker in the assembler and tool and die classifications.

	Current Agreement	New Agreement				
		1st Year	2nd Year	3rd Year	4th Year	Total Increase
Weekly Accident & Sickness Benefit						
Janitor	$550	$600	$600	$610	$635	$85
Assembler	$565	$615	$615	$625	$640	$75
Tool and Die	$665	$715	$715	$735	$760	$95
Monthly Extended Disability Benefit						
Janitor with fewer than 10 years of service	$1,985	$2,165	$2,165	$2,195	$2,290	$305
Janitor with 10 or more years of service	$2,180	$2,380	$2,380	$2,415	$2,515	$335
Assembler with fewer than 10 years of service	$2,045	$2,225	$2,225	$2,255	$2,320	$275
Assembler with 10 or more years of service	$2,245	$2,450	$2,450	$2,485	$2,550	$305
Tool and Die with fewer than 10 years of service	$2,410	$2,590	$2,590	$2,650	$2,740	$330
Tool and Die with 10 or more years of service	$2,650	$2,850	$2,915	$2,915	$3,015	$365
Life Insurance						
Janitor	$52,500	$57,000	$57,000	$58,000	$60,500	$8,000
Assembler	$54,000	$58,500	$58,500	$59,500	$61,000	$7,000
Tool and Die	$63,500	$69,000	$69,000	$70,500	$73,000	$9,000
Accidental Death & Dismemberment						
Janitor	$26,250	$28,500	$28,500	$29,000	$30,250	$4,000
Assembler	$27,000	$29,250	$29,250	$29,750	$30,500	$3,500
Tool and Die	$31,750	$34,500	$35,500	$35,250	$36,500	$4,500

Pension Gains for Future and Current Retirees

During this round of negotiations, the UAW bargaining team reaffirmed our union's commitment to our retired members. The proposed agreement includes pension and other improvements for current and future retirees.

- **The basic benefit will increase in each year of the proposed agreement; these increases will total $4.20 per month per year of credited service over the four-year agreement. In addition, the concept of the "rolling rate" increases for workers who retire during the term of the proposed agreement is continued.**
- **The 30-and-out benefits will increase by $290 by the last year of the agreement. With the increases, the 30-and-out benefits will reach $3,020 by the end of the proposed agreement.**
- **Lump-sum payments will be provided for current retirees in each of the four years of the new agreement, including a payment in December 2003.**
- **Retirees will be provided a $1,000 voucher toward the purchase of a new GM vehicle in the first and third years of the agreement.**
- **Workers will now have the option of designating any person as beneficiary for their pension benefits under a new contingent annuitant option.**

RETIREMENTS UNDER THE NEW CONTRACT

Basic Benefit Rate

The Basic Benefit Rate is increased in each year of the proposed four-year agreement. These increases will total $ 4.20 per month per year of credited service by the final year of the agreement. These increases will be effective Oct. 1 of each year of the agreement.

Table 1 shows these new basic benefit rates.

Table 1

For Basic Benefit Payable

Benefit class code	Current contract	10/1/03 to 9/1/2004	10/1/2004 to 9/1/2005	10/1/2005 to 9/1/2006	10/1/2006 and after
A	$46.70	$47.75	$48.80	$49.85	$50.90
B	$46.95	$48.00	$49.05	$50.10	$51.15
C	$47.20	$48.25	$49.30	$50.35	$51.40
D	$47.45	$48.50	$49.55	$50.60	$51.65

Beginning in 2004, retirees who have an outstanding overpayment under the Life and Disability Benefits program will have their basic benefit increases reduced by 35 percent until their debt is repaid.

30-and-Out Supplement

The 30-and-out benefits will also be increased a total of $290 for workers who retire before their Social Security 80 percent date during the term of the agreement. This will increase the 30-and-out income from the current $2,730 to $3,020 per month in the fourth year of the agreement. The 30-and-out monthly benefits for workers who retire under the new agreement are displayed in **Table 2**.

Table 2

30-and-Out Supplement for Benefits Payable

Current contract	10/1/2003 to 9/1/2004	10/1/2004 to 9/1/2005	10/1/2005 to 9/1/2006	10/1/2006 and after
$2,730	$2,805	$2,875	$2,950	$3,020

Temporary Benefits

The temporary benefit, which is paid to T&PD retirees who have not reached their Social Security 80 percent date and are not eligible for Social Security benefits and workers who retire under the mutual retirement provisions, will be increased in each year of the proposed agreement. These increases will take the temporary benefit from the current $44.45 (maximum $1,333.50) to $49.80 (maximum $1,494).

This benefit is paid in addition to the unreduced basic benefit until the Social Security 80 percent date or until Social Security disability benefits are payable, whichever occurs first. The new temporary benefits are shown in **Table 3**.

Table 3

Temporary Benefits

Retirement date (First Payment)	Monthly benefit per year of credited service	Maximum monthly benefit
Current contract	$44.45	$1,333.50
On or after 10/1/2003, before 10/1/2004	$45.75	$1,372.50
On or after 10/1/2004, before 10/1/2005	$47.05	$1,411.50
On or after 10/1/2005 before 10/1/2006	$48.50	$1,455
On or after 10/1/2006	$49.80	$1,494

Interim Supplement

The interim supplement will be increased for workers who retire under the early retirement provisions prior to the Social Security 80 percent date with less than 30 years of credited service. This supplement will be increased in each year of the proposed agreement. The new amounts per month per year of credited service, payable at retirement ages 60 and 61, are: $43.45 effective Oct. 1, 2003; $44.70 effective Oct. 1, 2004; $46.10 effective Oct. 1, 2005; and $47.30 effective Oct. 1, 2006. Younger retirees will receive reduced amounts.

Retirees, Surviving Spouses Get 4 Lump-Sum Payments

To protect against projected inflation, current UAW GM and Delphi retirees and surviving spouses will receive four lump-sum payments of $800 during the life of the proposed agreement in December of each year starting with December 2003. Surviving spouses will receive a payment of 65 percent of this amount, or $520.

Beginning in 2004, retirees who have an outstanding Extended Disability overpayment will have their lump-sum payments reduced by 35 percent until the overpayment is repaid.

Vehicle Vouchers

UAW retirees will receive two vehicle vouchers worth $1,000 toward the purchase of a GM vehicle during the term of the proposed agreement, one in the first year and one in the third.

These vouchers may be used by the retiree, or by any person who is eligible to purchase a vehicle.

There will be no tax consequences relating to use of the vouchers, but they may not be sold to a third party.

Special Survivorship Option

The benefits for survivors receiving benefits under the Special Survivorship Option will be increased from $11.90 per month per year of credited service to $13.10 effective Oct. 1, 2003.

Social Security "Age Creep" Adjustment

The Social Security "age-creep" adjustment, first negotiated in 1999, is continued in this agreement. Under the proposed agreement, current retirees born in 1941 through 1945, and workers born during these years who take an early retirement under the proposed contract, will have the payment of their supplements or temporary benefits extended to their so-called 80 percent date. The requirement that workers retire prior to age 62 and one month in order to be eligible to receive the additional supplements and temporary benefits has also been eliminated.

Future Retirees Win New Right to Designate Beneficiaries

During these negotiations, our UAW bargaining team added optional benefits to the pension program that will allow enhanced financial planning for future retirees. Workers will now have the option of designating any person as beneficiary for their pension. This is referred to as the contingent annuitant option.

Under this option, effective April 1, 2004, a future retiree may elect in 5 percent increments a benefit of 5 percent to 100 percent benefit for any beneficiary that the retiree chooses. The benefit is paid for by reducing the basic benefit the retiree would receive by a factor based on the ages of the retiree and the beneficiary.

Examples:

- A retiree age 60 who has a 57-year-old beneficiary elects the 50 percent benefit. The retiree's $1,600-per-month basic benefit is reduced by 11.5 percent to $1,416 per month, payable for the rest of the retiree's life. Upon the retiree's death, the beneficiary, if still living, would receive 50 percent, or $708, per month, for the remainder of his or her life.
- If the same retiree took the 100 percent option for the same beneficiary, the reduction is 19.25 percent; the retiree's income is then $1,292 per month until death. The beneficiary, if still living, would then receive the same $1,292 per month until death.

Some restrictions to this optional benefit apply:

- If the retiree is married, the retiree's spouse must consent to the designation of a different beneficiary.
- The option is available only at the time of retirement and can be rescinded only if the retiree is married or marries and wants to take a surviving spouse option and the contingent annuitant provides evidence of good health.
- If the age of the retiree exceeds that of the beneficiary by more than 10 years, and the beneficiary is not the retiree's spouse, federal law limits the percent payable to the beneficiary.
- If the beneficiary dies before the retiree, the retiree's benefit does not revert to the single life amount.
- There is no pre-retirement coverage under this option, and disability retirees are not eligible.
- Only one beneficiary can be selected.
- The beneficiary will not receive other GM or Delphi benefits because of the receipt of this annuity unless otherwise eligible.

This new optional benefit does not change the existing 65 percent surviving spouse benefit coverage.

Credited Service Pickup

Workers who have at least five years seniority as of Oct. 1, 2003, and who were absent from work due to a layoff in 1987, 1988 and 1989 will be credited with 40 hours of credited service for each complete week of that layoff, not previously credited, during which the worker had seniority multiplied by the percentage shown in **Table 4**.

Table 4

Credited Service

Seniority on Oct.1, 2003	Percent
20 years or more	100%
15 years but less than 20	75%
10 years but less than 15	50%
5 years but less than 10	25%

Spouses of T&PD Applicants Gain Additional Protection

The requirement that a disabled worker must have a terminal diagnosis to apply for a disability pension prior to the five-month waiting period has been eliminated.

Automatic Enrollment When Retired Worker Marries

To protect the surviving spouse benefits for retirees who marry or remarry after retirement, your negotiators established a system where the new spouse will be enrolled for these benefits automatically. When the retiree enrolls the new spouse for health care benefits or signs the new spouse on as a life insurance beneficiary, the surviving spouse enrollment follows automatically. The surviving spouse will be eligible for the benefits after one year of marriage. This benefit can be declined only with the consent of the spouse, and is not available to any retired worker who has previously declined the coverage.

New Pact Enhances Long-term Viability of UAW-represented Delphi Operations

GM commits new business to UAW Delphi plants

During 2003 negotiations, the UAW team faced a wide range of difficult challenges, none more complex — or more urgent — than ensuring the long-term job and economic security of UAW members at Delphi in a time of ever-increasing competition from both foreign and non-unionized domestic suppliers whose significantly lower labor costs enable them to consistently undercut Delphi and other UAW-represented suppliers.

To meet this challenge, the UAW and Delphi agreed to a series of actions aimed at making Delphi a more quality-minded, competitive and viable company for the long term.

In addition, General Motors committed to various actions to assure Delphi's long-term viability – including the commitment to award approximately $1 billion in new business to UAW represented Delphi facilities.

New UAW Delphi National Agreement

Delphi agreed to adopt a "New UAW Delphi National Agreement" that mirrors, in all respects, the 2003 UAW General Motors National Agreement. All UAW-represented former GM employees currently working at Delphi operations maintain the right to "flowback" to GM facilities, consistent with the UAW GM-Delphi Flowback Agreement. In addition, all workers hired at Delphi and GM on or before Oct. 18, 1999, are now covered by the flowback agreement with a newly established ratio of two Delphi flowbacks for each GM new hire.

In addition, the UAW and Delphi agreed to meet within 90 days after the ratification of the proposed agreement, and within 90 days of that meeting, negotiate a supplement to the New UAW Delphi National Agreement. In the event the parties are unable to agree on the terms of the supplement, the "New UAW Delphi National Agreement" will remain in effect without modification.

Future New Hires

No later than 90 days after the effective date of the 2003 UAW General Motors National Agreement, the UAW and Delphi will enter into discussions for the express purpose of negotiating "competitive wage and benefit levels" for employees hired on a permanent basis after the effective date of the supplement.

Wages and benefits in the U.S. automotive and truck component industry would be the benchmark used to determine competitiveness. As used here, "competitive wage and benefit levels" means wages and benefits that meet those of an appropriate, representative group of UAW-represented employers in the U.S. automotive and truck component industry.

These benchmarks would apply both to union-represented and non-represented Delphi employees, including salaried employees, hired after the effective date of the supplement. The resulting wage and benefit levels would be uniformly applied to all Delphi employees covered by the supplement.

Delphi Commitments

As part of those discussions, Delphi must commit in definitive, enforceable terms to:

- make sufficient capital investments in UAW-represented plants to allow them to be competitive, improve product quality, improve operational effectiveness, and be viable for the long term;
- allocate new product, both GM and non-GM, to UAW-represented facilities;
- focus on maintaining present GM business, winning back GM business lost since the spin-off and winning new GM business;
- develop enhanced retirement and separation incentives for employees;
- an appropriate level of supervisory staffing, as determined by mutual agreement, along with procedures to jointly review the supervisory staffing level on an ongoing basis;
- negotiate and implement operating practices that are competitive in the U.S. car and truck component industry;
- the principle of "equivalence of sacrifice" when establishing compensation and benefit levels for management to ensure that sacrifices made by UAW-represented employees are reflected in the pay and benefit practices of all non-represented employees. Top management must take the lead by accepting compensation and benefit reductions at least as large in percentage terms as those sustained by new hires.

GM Commits to New Business

To support the UAW's interest in GM to "look to Delphi first" and to support Delphi's long-term viability, GM agreed to award approximately $1 billion in new business to UAW-represented Delphi operations.

In addition, GM has developed the "Growth and Opportunities" process uniquely for Delphi that provides for advance review of sourcing opportunities that may impact Delphi's UAW-represented operations. The process will include participation by top UAW, GM, and Delphi leadership; its goal is to engage top leaders early to identify new business opportunities for Delphi on terms that meet GM's quality, service, technology and cost needs.

GM also will take the following actions to help assure the viability of UAW-represented Delphi operations:

- GM will work closely with Delphi and the UAW on the correction of component quality and improvements in delivery;
- GM will collaborate with Delphi on engineering, design and other technical matters that could lead to improvements in quality and productivity at both companies;
- GM fully supports efforts by the UAW and Delphi to establish "competitive wage and benefit levels" for future UAW-represented Delphi employees in order to enhance Delphi's opportunities for additional work from GM and other automakers. GM will consult as necessary with the UAW and/or Delphi and agrees to review and give serious consideration to proposals for the placement of additional work.
- Beginning with the effective date of the 2003 UAW GM National Agreement, General Motors will update the UAW on Delphi sourcing at monthly meetings or intervals as requested by the UAW. The updates will include a detailed overview of GM's product programs and sourcing opportunities that have been identified for Delphi's UAW-represented operations.

Job Security Program Extended

The UAW remains committed to the historic job and income security programs that have provided job and economic security for UAW members for many years. The JOBS program will be continued in this agreement and unfulfilled hiring obligations generated in the 1999-2003 agreement will be carried over.

JOBS/SUB Caps Maintained

The JOBS/SUB fund caps were re-established at an aggregate amount of $3.951 billion at GM. Of the total, $2.107 billion was earmarked for the GM JOBS cap. At Delphi, the aggregate amount was re-established at $1.181 billion, $630 million for the Delphi JOBS cap.

New Hire Obligations

No new "snapshot" will be taken on the effective date of the 2003-07 agreement, thereby preserving the unfulfilled new hire obligations that existed at the close of the old agreement. BMM (Benchmark Minimum) Groups were eliminated, which means that a new hire obligation must now be fulfilled at the unit where it was created; in the past, the obligation could be satisfied at another unit within the group.

Benchmark Minimums

The 0.333 percent quarterly adjustments to Benchmark Minimums (i.e., the targeted minimum employment levels) will resume in the last quarter of 2003 and continue through the second quarter of 2007, so that the June 30, 2007, Benchmark Minimums will be equal to 90 percent of the initial number of eligible employees/jobs back at the beginning of the 1999-2003 agreement.

Limits on Volume-Related Layoffs

The limit on market-driven, volume-related layoffs increased to 48 weeks from 42 weeks.

Attrition Replacement

Attrition replacement obligations under this agreement will continue as under the 1999 agreement.

Notification of Transfers (Paragraph 96)

The UAW and the corporation discussed the timely and accurate notification to the union before work or tooling is transferred between plants. The corporation committed to the UAW that no work would be transferred prior to notification and discussion with the International Union.

The corporation agreed to contact Group and Divisional Labor Directors and emphasize its obligation to inform union representatives in advance of work or tooling being transferred. This will enable workers to transfer to the new plant near the time the work is transferred. When employees transfer between units, the BMM will be adjusted to reflect the actual number of transferring workers.

Pre-Production Operations

UAW members who work in programs at Pre-Production operations, such as Validation Centers, Technical Centers, Tooling facilities and Design Facilities, have been impacted by a variety of circumstances. In response to the union's concern for job security it was agreed that the local JOBS Committee(s) will address any reduction to the workforce at pre-production locations either through voluntary inverse layoffs or Protected Status. The issue will be forwarded to the National JOBS Committee if it cannot be resolved by the local parties.

Shared Cross-Docking Saves 24 Jobs, Creates 24 New Jobs

The UAW and the corporation discussed at length both the competitive challenges facing the General Motors Service Parts Operation (GMSPO) and the need to preserve job security for UAW members.

The resulting agreement saves 24 jobs for UAW members and creates an additional 24 jobs as the corporation transitions out of its Regional Interline Facilities and into Shared Cross-Docking.

Currently, there are 16 Regional Interline Facilities (RIFs) located near 16 SPO Parts Distribution Centers (PDCs) employing 24 UAW-represented members. RIF facilities, as we know them today, will be discontinued and GMSPO will relinquish its interest in those facilities and associated work functions.

The work functions currently performed by UAW workers will transition to Shared Cross-Dock warehouses. The 24 members currently assigned to existing RIFs will transition back into the PDCs beginning in the fourth quarter of 2003 and will be completed by the second quarter of 2005.

The company agreed that the parts for the "Equinox" platform will be in-sourced and distributed by UAW-represented parts, PDCs and AC/Delco distribution plants, equaling a total of 35 jobs. Work will be in-sourced in phases with 13 jobs by the fourth quarter 2004 and 22 jobs by fourth quarter 2005.

Furthermore, 13 additional jobs will be identified and in-sourced by year end 2005. These jobs may be a result of increased Equinox work or newly identified work.

The Equinox and new work in-sourcing initiatives will expand the current 24 UAW jobs to a total of 48 UAW jobs with additional growth potential.

Improvements in SUB/GIS

The UAW GM Delphi bargaining team secured many advances in the area of the Supplemental Unemployment Benefits (SUB). The SUB Caps will be replenished to the levels in effect at the beginning of the 1999 contract. For GM, the fund will be $1.844 billion and for Delphi $551 million.

- The waiting week for SUB will be eliminated.
- The two-hour offset for overtime after a qualified layoff will be eliminated.
- The maximum benefit will be increased from $175 to $190.
- The work-related expense offset will be increased to $30 from $25.

Sourcing Improvements Strengthen Union's Ability to Retain Work

New Method for Determining Manpower Impact on Sourcing

The method for determining the manpower needs on current and future work is critical in order to successfully develop an accurate in-house business case for retaining work.

A new method to address this concern spells out how to take the manpower needs into account for all workers directly involved with the work in question.

Multi-Plant Business Cases

The UAW will now have the opportunity to develop competitive cases on work impacting more than one location by quoting the entire volume.

Performance (Up-fitting) In-sourcing Opportunities

The UAW improved the local unions' ability to make a business case for in-sourcing work related to producing limited edition performance (up-fitting) enhancements and appearance items.

UAW-GM Divisional Meetings

The proposed agreement provides for a semiannual meeting between each division and the National Sourcing Committee. The meeting will cover sourcing, in-sourcing, new and future products, new technology, Appendix L.

Appendix L On-Line Training

The implementation of an online training module will provide an invaluable tool for both union members and management whose responsibilities include the proper administration of Appendix L.

UAW-GM Annual Plant Sourcing Audits

The UAW and the corporation agree to conduct annual joint audits to assist the Local JOBS Committees in sourcing activities at their location. The National Sourcing Committee will serve as a resource for the successful administration of Appendix L-related activities.

First-time UAW Participation in Supplier Selection Process

In a significant breakthrough in the area of sourcing, the UAW has gained first-time input into the supplier selection process through involvement in the selection of system supplier integrators. The system supplier integrators work with GM Worldwide Purchasing early in the vehicle development process to facilitate the sourcing process through assisting in developing the bid list and participating in technical reviews.

In recognition of the union's right and interest to defend its work, and obtain additional work, the proposed agreement provides that the union will be notified prior to the selection of a potential system supplier integrator. The union will have the opportunity to give input regarding potential integrator candidates, to review information and contribute to these early sourcing decisions, and nominate qualified integrator candidates.

Union Wins Future Product Involvement to Limit GM Outsourcing

UAW negotiators crafted new language to stem the flow of outsourcing on General Motors' Future Product Programs. The corporation uses a complex process intended to take a product program from the concept phases through development and into production. New language in this agreement gives the union a greater voice at key decision points earlier and throughout the process.

The vice president and director of the UAW GM Department will receive quarterly reviews from corporate executives regarding the Advanced Engineering, Advanced Planning, and Manufacturing plans of the corporation. He will then integrate union representatives into key strategic positions throughout engineering and manufacturing to be active participants in the Vehicle Development Process (VDP) and to ensure union review and input.

The UAW intends to be involved in every phase of GM's Future Product Process, from the concept phase to the production phase. This new language will supply the UAW with the means to identify potential in-sourcing and outsourcing activities, thereby giving input and attracting more work to add to the current work at UAW facilities.

ADAPT Program Improved

The ADAPT (Accommodating Disabled People in Transition – Document 121) program was further enhanced. ADAPT is a voluntary program that enables workers with disabilities or restrictions to remain at work in a job that complies with their restriction(s), as well as the applicable provisions of the local and national agreements.

Under the new agreement, more emphasis will be placed on job modification(s) and accommodation(s) while keeping the workers on the active payroll until it is "jointly agreed" that no job can be found.

Confidentiality and documentation will also be emphasized. A new training curriculum will be developed and implemented to provide the ADAPT team at each location with information to better serve the needs of the membership. Awareness information about this program will become part of the New Employee Orientation.

Union Wins Role in Delphi Product Development

Recognizing that the future success of the UAW membership and Delphi depends upon the early sharing of information and data related to potential in-sourcing opportunities and outsourcing issues, the parties broke historic ground in the Product Development Process (PDP).

The Future Product Sourcing language was completely rewritten to include earlier and more effective union involvement and input into sourcing decisions potentially impacting current, redesigned, new and future products and components, including non-automotive products and components.

The new joint product development process will be evident at all stages of the union-management relationship, from the plant floor to the national levels and especially in a semiannual review conducted by Delphi top officials for the UAW Vice President and Director of the GM Department.

Other high-level meetings between the UAW and Delphi have been agreed upon to review new product plans and solicit UAW input.

Information sharing will include a monthly update on all potential outsourcing issues, long before outsourcing notices are issued. This information sharing should allow the parties to better address competitive issues well in advance of the critical sourcing decision due dates.

This new and increased union involvement should dramatically improve the union's ability to develop business cases to defend, in-source and grow traditional Delphi and General Motors' work and non-automotive Delphi work.

Delphi Sourcing Information

The UAW was successful in further enhancing Delphi's commitments relative to early notification about contemplated outsourcing.

Bereavement Time Credited for Probationary Workers

A probationary worker who is scheduled to work but is absent for an entire pay period due to the death of a current spouse, parent, child or stepchild will be credited with one week worked toward seniority.

Funeral Requirement Removed

In the case of a death of a member's immediate family, as defined in Paragraph 281b, the requirement that you must "attend the funeral" to receive bereavement leave of absence has been deleted.

Pay Increase for Members in Seven-Day Operations

The new agreement provides UAW General Motors members who are working seven-day operations an additional 5 cents, making the total 30 cents per hour for time worked.

Advance Vacation Pay

Workers with at least two years seniority as of their last vacation eligibility date may now apply for advance vacation pay. Requests must be in 40-hour increments.

Improved Jury Duty Pay

The daily jury duty fee paid by the court will no longer be deducted from the wages of UAW members called to jury duty.

Legal Services Coverage Expanded

In this round of negotiations, the UAW improved eligibility for the Legal Services Plan. The plan will now provide services to seniority employees with at least 90 days of seniority. Any employee with seniority who has been continuously laid off will increase their eligibility from 18 months to 24 months after the month in which his/her layoff began.

The union gained extension of legal service benefits for covered dependents, including the surviving spouse to one year after the death of the employee. Previous coverage expired 180 days after the death of the employee.

Individuals determined eligible for benefits under the UAW-GM health care program will now also be eligible for legal benefits.

The union also negotiated a continued commitment to sufficiently fund the Legal Services Plan to provide full benefits for the term of the proposed agreement.

Plant Closing and Sale Moratorium Exceptions

Three facilities have been identified by GM as exempt from the plant closing moratorium (Document No. 13) during the term of the 2003 UAW-GM National Agreement: GMVM – Baltimore; GM Powertrain – Saginaw Malleable Iron; and the Argonaut Building.

In addition, GM has identified Electro-Motive Division as a facility subject to sale during the 2003 UAW-GM National Agreement.

During these negotiations, Delphi management proposed the consolidation of six facilities: Flint West into Flint East; Tuscaloosa, Ala. into Lockport, New York; and Olathe, Kan. into Fitzgerald, Ga.

The UAW resisted this proposal and Delphi withdrew it. Nevertheless, the company notified the union that it intends to raise the issue of potential consolidation of these facilities during the term of the 2003 agreement. The company acknowledges, however, that such consolidations cannot be undertaken without the agreement of the International Union.

Significant Advances in Skilled Trades Include New Technology Committee, Plan to Retain and Gain Warranty Work

Apprentices Working Alone

The union expressed specific concern about the health and safety of apprentices assigned to work alone on "high-risk" jobs without a qualified journeyperson being present. The corporation has agreed that apprentices will not be assigned to work alone on "high-risk" jobs. The definition of "high risk" will be subject to the approval of the respective Plant Safety Review Board.

The same safety concepts being put into place for apprentices will also be used for Employees-in-Training (EITs) and journeypersons being retrained.

Standard Apprentice and EIT Health and Safety Training Schedule to Be Established

Currently, there are too many inconsistencies between locations in health and safety training plans for apprentices and EITs. The new agreement establishes a common and uniform health and safety-training schedule for apprentices, EITs and journeypersons being retrained to an apprenticeable trade. Within 12 months of the effective date of the 2003 national agreement, a common Apprentice and EIT Health and Safety Training Plan will be developed and implemented in each plant.

Training Plans and Rotation of Apprentices

In some locations, the placement of a relatively large number of apprentices on the same date makes training plans and rotations difficult. It was agreed that UAW members of the Local Apprenticeship Committee would be informed and have the necessary input to ensure that apprentices' training schedules are tailored for maximum effect.

Clarification of Document 20

In the circumstance in which an apprentice has transferred to another plant under the provisions of Document 20, the parties have clarified that apprentices will establish a new date of entry into the trade at the secondary plant. Credit for prior experience, only for completion of their term of apprenticeship, may be granted at the new plant in accordance with Paragraph 132 of the national agreement.

The UAW Skilled Trades Subcommittee bargained to win new gains for skilled trades workers.

New Technology Committee Established

Advancing technology has a direct impact on the scope and work content of job classifications of UAW members. A New Technology Committee will be established at each local facility to ensure the advance discussion on the potential impact of new and/or upgraded technology on the plant and membership. The chairperson of the shop committee, the plant personnel director and/or their designated representatives will comprise the Plant New Technology Committee along with other union representatives and other employees deemed necessary.

UAW Involvement in Vehicle Development Process at GM Tech Center

The union raised concerns that there was no notification of new or advanced technologies being introduced into the New Vehicle Development Process (VDP), which has severely impacted the job security of UAW members involved in prototype work. The VDP will now include the involvement of a UAW member assigned by the chairperson of UAW Local 160, GM Tech Center, at the contract signing stage of the process. Involvement at this level will prevent the corporation from circumventing the national agreement provision "Statement of Technological Progress."

Tool Allowance Increased

The tool allowance provided to apprentices upon graduation will be increased from $1,100 to $1,200 under the proposed agreement.

Increased Tool Allowance for Retrained Journeypersons

Journeypersons who are retrained to an apprenticeable trade will receive an increase in the tool allowance to $350, payable at the midpoint of his/her approved training program, to be applied to the purchase of tool(s) required to perform the job assignment of the new trade.

Toolbox for Retrained Journeypersons

In the case of a journeyperson who is retrained in a different apprenticeable skilled trades classification, such permanently assigned members will receive an appropriate precision toolbox, if required, within their new classification. This toolbox will not duplicate any similar toolbox that the member has received or might have received under terms of any other national or local provisions.

Warranty Work

To enhance the ability of skilled trades members to retain and gain warranty work on leased equipment, it was agreed that the local union should pursue competitive discussions with local management regarding leased equipment in the plant covered by warranties which feature recovery/ billback arrangements with the vendors.

Die Engineering Services Added to Subcontracting Communications

Die Engineering Services will now be included in Doc. 98, advanced notification, review and competitive process, enabling skilled trades better opportunities to retain and gain skilled work.

Local Review of Non-apprenticeable Classifications

The union raised concerns that management was not fulfilling attrition replacements in many non-apprenticeable classifications. To prevent subcontracting of these work functions, it is suggested that the local parties review their current non-apprenticeable skilled trades to discuss folding them into appropriate apprenticeable trade(s), with a $350 training allowances paid to all affected members.

EIT Training Increased

The Employee-in-Training (EIT) training schedule has been increased to 500 hours from 400 from the previous agreement. The local shop chairperson and local management may recommend additional training up to a maximum of 576 hours, subject to the approval of the UAW-GM Skilled Trades and Apprenticeship Committee.

Tool Room, Die Room and Engineering Shops in Planned Maintenance

To help prevent subcontracting of skilled trades work due to the inability to hold required dimensional tolerances resulting from improper or insufficient maintenance of tool room, die room or engineering shop equipment, agreement has been reached that such equipment will be included in the Quality Network Planned Maintenance Process.

Skilled Trades Supervisor Review

In response to the union's concern that in some locations the skilled trades membership was being supervised by contract supervisors or regular supervisors without prior skilled trades supervisory experience, the parties agreed that in such a circumstance a review of work assignments will be conducted. The review will address traditional work assignments, lines of demarcation, work rules, work practices, and the agreement pertaining to skilled trades job assignments.

Skilled Trades Administration Audit

In an effort to standardize the administration of key provisions of the national agreement and processes related to skilled trades, the parties have agreed to skilled trades audits. The UAW-GM Skilled Trades and Apprenticeship Committee will finalize and implement a joint audit process. Key provisions include, but are not limited to, Apprentice Program, Sub-contracting, Lines of Demarcation, Statement on Technological Progress, Job Security, Employee Placement, Indirect Labor Gap, and Documents 63 and 112.

Renewed Commitment to Using Best Practices and Continuous Improvement

The national parties agreed that the competitive gap is a continuing driver for reducing costs and improving efficiency. Accordingly, the parties agreed that the Joint Task Teams established under the provisions of Document 138 would continue. The parties reaffirmed the commitment to use Best Practices developed by the Joint Task Team to reduce costs and the necessity to outsource or subcontract bargaining unit work.

2,250 New Apprentices at GM; 750 New Apprentices at Delphi

The UAW bargaining team negotiated a commitment from GM to hire 2,250 new apprentices over the term of the agreement. The corporation also agreed to make a good-faith effort to increase the total to 2,800 over the life of the agreement.

At Delphi, the union negotiated a commitment to hire 750 new apprentices over the term of the agreement, and a commitment to make a good-faith effort at Delphi to increase the total to 950 over the life of the agreement.

Improvements in Health and Safety

Access to Data

The corporation has committed to providing full access to data pertinent to investigating health and safety issues. This includes the Health Information System, Mortality Registry, Worker Compensation and Sick and Accident databases. Furthermore, the proposed agreement secures commitments to keep these databases updated and to jointly seek ways to enhance the effectiveness of these systems and resident data.

Control of Chemical and Foundry Exposures

The company agreed to control employee exposures to chemicals based on the American Conference of Governmental Industrial Hygienists (ACGIH) for Threshold Limit Values (TLV) which are significantly lower than OSHA requirements. Each year these values are updated based on health effects research.

Provisions that establish annual comprehensive assessments of all exhaust ventilation systems will further protect employee health. All ventilation systems will be included in plant preventive maintenance programs and included in MAXIMO. The union also won agreement from the corporation to provide the Industrial Hygiene Technician with notice of all reported work-related cases with symptoms such as headaches, nausea, skin problems and respiratory complaints.

Corporate Database of Chemical Substances

The computerized corporate chemical database will be improved. The UAW Health and Safety Representatives will be provided access to the database.

Emergency Response Teams

The union pushed to enhance the trendsetting language establishing Emergency Medical Response Teams and the corporation agreed to improve and expand existing guidelines. The union also sought language that ensures all Emergency Medical Response teams will be well equipped and highly trained. As a result, the parties agreed to provide adequate joint funds for all related training needs.

Ergonomics

The UAW won additional improvements in the area of ergonomics, including early action for ergonomic problems, daily availability of the symptoms questionnaire, greater involvement in design-in activities, major skilled trades initiatives and increased monitoring of medical support for ergonomics. Key to these changes is a shift toward more and earlier UAW input at every stage of ergonomics.

A new Quick Response Process has been agreed to which will place a high priority on responding to every ergonomics-related medical visit. Supervisors will now be required to investigate and report on ergonomics-related medical visits within 24 hours. At the same time the Joint Ergonomics Technicians Team (JETT) will be notified by the medical department in order for them to begin their process as soon as possible. The old symptoms questionnaire will be modified to incorporate more ergonomics information and will be available every day rather than once every two years. There is now no reason for a worker to have to wait to get attention for a symptom or problem job.

Advances in job analysis include requiring all job analyses to be completed within two months of the triggering event. Streamlining the process will allow the ergonomics technicians to focus their time on the real problems and eliminate perfunctory efforts and wasted time. The JETT may now include any job for any reason in the two-month job analysis list.

Broad changes in the total approach to skilled trades include a major breakthrough in ergonomics. The joint parties will develop a trendsetting skilled trades job analysis process and will analyze all skilled trades classifications using leading edge technology. This proactive initiative will provide early opportunities to improve skilled trades jobs before detrimental health issues arise.

Building on previous gains in the design-in, new commitments move the UAW-GM Ergonomics Program into a truly joint proactive process. The Joint Ergonomic Technician Teams now become full partners in the early design phase of new products and processes. At the same time, our UAW JETTs will become involved in potential ergonomic problems earlier than ever before.

As a result of these negotiations, the UAW will now have a much greater involvement in the review of the corporation's medical management program and its medical training plans.

Health and Safety Funds

Based on the advance agenda for Occupational Health Research, a record $9.8 million between GM and Delphi has been earmarked to fund health-related research. Additionally, corporate funds will be used to provide Personal Protective Equipment, devices, health and safety training and other safety-related support, including that which is required as a result of new technology.

Health and Safety Hazards of Outside Contractors

The proposed agreement establishes that any time a contractor works in proximity to UAW-represented workers, he or she must abide by all applicable UAW-GM health and safety work practices. In addition, an advance review of contractor safety plans must be conducted along with periodic monitoring for compliance.

Industrial Hygiene Technicians

Skilled trades jobs and other non-routine tasks will be included in the annual air sampling plans to ensure that environmental exposures are maintained at safe levels.

Illness/Injury Reporting

The UAW has taken a strong stand against the use of certain rewards and incentives used to bribe and coerce workers to discourage the reporting of work-related injuries or illnesses. With the union's strong urging, the corporation has strengthened its position against the use of any monetary or tangible reward system which could discourage such reporting. The corporation also agreed to continue the reporting of near-miss incidents under the no discipline provisions previously agreed upon.

Innovative New Agreement Procedure

In a major advance to the joint health and safety process, the parties have developed a health and safety procedure that allows for continuous improvement and quick resolution of health and safety disputes. With this historic agreement, the UAW secured the corporation's commitment to a rapid process for the resolution of critical safety disputes. This new joint agreement will enhance, while preserving, the grievance and safety complaint procedure set forth in Document 7. Under the continuous improvement process, the parties are empowered to make mutually agreed upon improvements to the health and safety portion of this agreement, provided the improvements do not conflict with federal or state regulations or language in any other portion of the agreement.

Joint Audits of Plants

The parties agreed to build on the success of the Joint Audit Process by committing to audit all facilities on a yearly basis, or as deemed necessary by the national Joint Health and Safety Committee. This will ensure all joint safety policies and procedures are being implemented in a timely manner.

Metalworking Fluids

The corporation committed to continue making significant progress in reducing employee exposure to metal removal fluids through processing controls, engineering controls, exposure assessment, aerosol mapping and medical surveillance. The strategy includes a joint review of the Powertrain Division Fluid Management Guidelines and GM Metal Removal Fluid Exposure Control Plan. In addition, a newly developed joint GM Metal Removal Fluid Exposure Control Committee will be established at appropriate facilities. Divisions using metal removing fluids will report on this strategy at both the Plant and Division Safety Review Board meetings and to the National Joint Committee, when requested.

Noise

During negotiations, the union and corporation discussed the importance of providing workers with improved hearing protection. A study will be conducted by the National Institute on Occupational Safety and Health (NIOSH) and UAW-GM to evaluate the performance of available advanced hearing protection based on economic and administrative feasibility, noise reduction ratings and viability to hear warning signals. The study results will be forwarded to the National Joint Committee for review and action.

Placarding

Under the agreement, the Lockout Policy was expanded to incorporate a common corporate-wide process that includes using a common tool to make common lockout placards. This tool will be used for all new and modified equipment. Existing placards will be revised. In addition, the corporation committed to an annual review of all lockout placards to verify and ensure accuracy.

Powered Material Handling Vehicles

The parties have agreed to a powerful new mechanism to reduce the hazard of pedestrian-vehicle incidents. All UAW-represented facilities will activate Joint Pedestrian / In-plant Vehicle Teams to orchestrate a process designed to eliminate pedestrian-vehicle injuries. The teams will use the hierarchy of controls as they implement strategies to prevent and eliminate blind corners, maintain clear aisles, improve driver visibility and elevate employee awareness.

Planned Maintenance

In order to further protect our maintenance workers, the parties agreed to incorporate safety-related information such as safe operating practices into the Quality Network Planned Maintenance program, MAXIMO.

Research

The National Joint Committee will direct the Occupational Health Advisory Board to conduct research on fine particle filtration and recirculation of exhaust air. This research can help the UAW and the corporation better understand methods to improve the environment in body shops and machining facilities.

Skilled Trades

Due to the inherent risk of skilled trades job assignments, the parties agreed to continue to focus on work practices, high- risk jobs and the general safety culture for our skilled trades workforce. These improvements include job analysis for ergonomic risks (see Ergonomics section), skilled trades and supervisor training, along with current and up-to-date recordkeeping. A major improvement is focused on communicating with skilled trades workers about the critical importance of safety protocols and procedures. Communication materials and video programs will be developed and designed to support these initiatives.

Training

In an ongoing commitment to maintaining a highly skilled, well-trained, safety conscious workforce, the parties agreed to build on previous commitments. While continuing prior commitments for health and safety training, the parties agreed to increased training for Joint Ergonomics Technicians, Emergency Medical Responders, Industrial Hygiene Technicians, Skilled Trades and new employee orientation. In addition, all employee-training records will be updated and adequately maintained.

Working Alone

When employees are assigned to work alone in an isolated area, plant management will ensure employee safety through an appropriate level of personal surveillance. In a letter sent to the Plant Safety Review Board, it was agreed that any isolated assignment would be reviewed with the Plant Safety Review Board in advance to determine the proper level of personal surveillance. Employees working alone will have supervisors assigned to ensure their safety.

Worldwide Facilities Group and Purchasing

The Worldwide Facilities Group will be required to meet with the National Joint Committee on Health and Safety to review advancements in technology, thus eliminating the purchase of any new equipment not in compliance with jointly agreed upon safety requirements.

New Relocation Benefits

Allowances increased, process simplified

UAW negotiators successfully improved the relocation process in this round of bargaining. The new process enhances eligibility, and increases the amount of money available to those who change plants outside of their current plant's area.

Increased Area Hire and Extended Area Hire Options

To minimize congestion in the transfer system, all applications will now be purged on an annual basis, with workers being notified in writing prior to the purging. Members will now be eligible to submit three area hire and three extended area hire offers in each year of the agreement.

Protected Status Placement Improved

Protected status workers will now be placed within their area hire only after exhausting plant recall, plant rehire, area hire volunteers, flowback transfers and extended area hire volunteers from plants with excess workers.

Relocation Allowance Eligibility Expanded

Members will no longer be obligated to change their residence in order to qualify for relocation allowance when transferring to a plant outside of their area.

Full relocation allowance will now be paid to each employee of a household who transfers to a new plant.

Option 1- Enhanced Relocation

The enhanced relocation allowance of $25,000 is an increase of $1,500 over the previous agreement. The payouts will occur in the following order:

1. An up-front signing bonus of $5,000.
2. Within three weeks of the start date at the new plant, the member will receive $15,000.
3. After working at the new location for one year he or she will receive the final payment of $5,000. The transferred worker may have the one-year payment advanced to use toward the purchase of a new home.

The new language allows members to reapply for transfer immediately upon entering the new location, if they so desire. Subsequently, they will be allowed to transfer prior to the previous 36-month lock-in period, if their current plant's status changes and there are workers either in protected status or indefinitely laid off. Workers receiving the enhanced relocation allowance will terminate their return to former community rights.

Option 2-Basic Relocation

The basic relocation allowance is payable to members who relocate from the plant of layoff to the plant of hiring. The basic relocation allowance has been increased in accordance with the charts below.

Option 1: Enhanced Relocation

Step 1	Step 2	Step 3
$5,000 up-front signing bonus	**$15,000** paid within 3 weeks of entry at new facility	**$5,000** paid within 3 weeks of first anniversary at new location

Option 2: Basic Relocation

Miles Between Plant Locations	1999 Agreement Allowance	2003 Agreement Allowance
50-99	$2,820	$3,038
100-299	$3,107	$3,347
300-499	$3,259	$3,511
500-999	$3,849	$4,146
1,000+	$4,425	$4,767

Expanded Diversity Activities

During the 2003 negotiations, the UAW and the corporation renewed their commitment to move the diversity program to the "front burner."

Local plants will receive additional resources from the National Equal Application Committee to evaluate the effectiveness of the plants' diversity environments, provide a Joint National Critical Intervention Team and develop training.

National Equal Application Committee Audit

The National Equal Application Committee (NEAC) will jointly develop means that will allow the NEAC to audit, monitor and evaluate diversity environments and initiatives.

A Diversity Training Program

A Diversity Training Program in the area of diversity, sensitivity and equal application provisions of the national agreement will be made available to the UAW GM local plant leadership.

Joint National Critical Intervention Team

The joint National Critical Intervention Team will be established to assist the local Equal Application Committee, upon the request of the local Joint Activities Committee, to address problems that require intervention because of an incident or an environment with diversity-related issues.

Grievance Procedure

Time to Report Back to Work Extended

The proposed agreement extends to five days the time for members to report back to work after written notification has been sent to the member's last known address that the member's seniority has broken. The previous agreement provided three days to report back.

Time Limit on Claims Increased

The proposed agreement provides that claims under the grievance procedure will be limited retroactively 45 days prior to the date the claim was filed in writing. Previously the time limit on claims was 30 days prior to the date the claim was filed.

Reduced Time in Prior Discipline

When imposing discipline on a current charge, management will not take into account any prior infractions that occurred more than 24 months previously. In the previous agreement that period was 36 months.

Access to Discipline Records

In response to the UAW's concerns about local committeepersons having ready access to workers' discipline records, the company has agreed that local management will make available a review of a member's current discipline record upon request to local union representatives.

Full Disclosure at Every Level

Language in the proposed agreement reaffirms the importance of full disclosure of all pertinent information, at every step of the grievance procedure, at the earliest possible opportunity.

Clarification on Grievance Investigations

The proposed agreement clarifies that the intent of committeeperson notification to the supervisor upon entering the department is to maintain an effective procedure for resolving grievances. Management has stated that it has no intention to interfere or impair the orderly investigation of grievances.

Commitment to Timely Grievance Procedure

In response to the UAW's concerns about the importance of representation of UAW members and timely handling of grievances at all levels, the parties agreed to republish language emphasizing their commitment to the administration of the grievance procedure.

Review of Credited Service for Sick Leave

Cases in which a worker was on Worker's Compensation leave followed immediately by a sick leave of absence will be reviewed to ensure that workers receive credited service under the Pension Plan. The review will cover records from Oct. 1, 1993, to date and corrections will be made where appropriate.

Rehire Rights Extended

Workers who had recall or rehire rights as of Oct. 1, 1990, and who broke seniority and lost rehire rights shall have a rehire right to their plant through the term of this agreement.

Wage, seniority adjustments

National Guard Disaster Relief Duty

The union was successful in gaining pay for workers who participate in disaster relief as part of their National Guard short-term active duty (30 days). Payment is limited to a maximum of 15 working days in a calendar year.

Special Active Duty/ Armed Services

Members called to special active duty in the armed services will be treated under the provisions adopted following the events of Sept. 11, 2001.

New Commitment on Wage Reviews

The corporation has agreed that wage issues will be reviewed and resolved by the UAW and the corporation in an expeditious manner.

Notification of Overpayments

The proposed agreement provides that the corporation will properly notify workers when overpayments have been made in error and deductions will be made from the worker's pay. The member or union representative may seek additional information from the company.

Seniority for New Hires Under Paragraph 64e

Workers rehired under paragraph 64e will acquire seniority on their first day of work.

Seniority Slippage Clarified

In applying the "seniority slippage" provisions to certain supervisors who also retain seniority in the bargaining unit, those supervisors who had previously established a plant seniority date of Jan. 7, 1985, will be able to use that date as a "tie breaker" to determine seniority preferences and as a date that determines eligibility for employee placement.

Absenteeism

The parties agreed that unwarranted absenteeism adversely impacts quality, cost, and delivery and in doing so impacts the viability of Delphi's business and UAW members' job security. To address this important issue the parties have agreed that the Key Four at each location will jointly develop and deliver communications to employees about this issue. The local parties are empowered to jointly agree to implement other creative initiatives to further address absenteeism, subject to the approval of the national parties.

SPO Holidays and Vacation Periods to be Discussed

Recognizing that SPOs function during the Independence Week Shutdown Period, the plant Vacation Shutdown Week, the Christmas Holiday period and other periods to serve customers' needs, the parties have agreed to meet within 90 days of the conclusion of the negotiations to discuss overtime during such periods, and to develop mutually satisfactory solutions to provide more effective SPO shipments during those periods.

Work/Family Programs Enhanced

In this round of negotiations, the UAW enhanced Work/Family programs that address our members' needs in a number of important areas.

New National Child Care Provider Network

Our union remains dedicated to creating innovative programs that help relieve the stress of finding affordable, quality care facilities for dependents. The parties have agreed to implement a new program, The National Child Care Provider Network. The Network will be a directory of child and elder care providers located near UAW GM and Delphi plant locations that may provide UAW members with discounted rates for child care and elder care services and/or flexible operating hours.

The National Child Care Provider Network will be made available to all UAW GM and Delphi plant locations. The existing Child Development Center in Flint, Mich., and the Work/Family initiative Near-Site/On-Site Child Care Centers in one or more jointly selected communities will continue. The Dependent Care Spending Account will continue allowing members to pay for dependent care services with pretax dollars.

Homework Help Line Expanded

The Homework Hotline, which provides homework assistance for children in grades 3 through 12 in the areas of math, English, history and science, will be expanded to all UAW GM and Delphi plant locations.

Work/Family Program Improvements Provided

Recognizing the importance of providing a safe working environment for UAW-represented GM and Delphi work/family program representatives, and the members receiving services, agreement was reached to install a panic button in each Work/Family office to comply with EAP Program Standards. Every Work/Family office will be supplied with a fax machine to ensure information received or sent is confidential.

All appointed UAW Work/Family Representatives may pursue an EAP Certification through the National Organization for Competency Assurance (NOCA). The NOCA certification will replace the Employee Assistance Professionals Association (EAPA) Certification program.

Pre/Post Retirement

Pre/Post Retirement information will be available on the CHR Web site (www.uaw-gm.org). The Pre/Post Retirement participant's manual will be jointly updated. The wages of individuals who are assigned to conduct Pre/Post Retirement training (including time spent for preparation and delivery) are appropriate expenditures from local joint funds.

PEL

The parties agreed to continue to provide college credits for PEL participants through the American Council on Education Program Non-Collegiate Sponsored Instruction . A joint task team will conduct a review of the current national, regional and local PEL programs and make recommendations to the co-executive directors of the UAW-GM Center for Human Resources for appropriate changes.

Increases in Tuition Assistance; Improvements in Training Programs

The wide array of training opportunities available to UAW-represented workers through the UAW-GM Center for Human Resources will be greatly enhanced under the terms of the proposed agreement. Increases in the tuition assistance programs for our members, dependents, retirees and deceased spouses of active members were also attained.

Tuition Assistance

Active UAW- represented members will be eligible to utilize an additional $400 of tuition assistance per calendar year for degree-related courses, raising the total annual benefit to $4,600. The job-related allowance increased $100 per year, raising the benefit to $2,200.

Tuition assistance for laid-off workers increased $400 and is now as follows:

Seniority as of date of layoff	
1 to 3 years	$6,400 (previously $6,000)
3 to 4 years	$7,400 (previously $7,000)
4 or more years	$8,400 (previously $8,000)

Surviving spouses may now utilize the remainder of the deceased active worker's entire tuition assistance entitlement from the current agreement. This is an increase from the previous provision allowing only one year of entitlement. Additionally, a new provision allows surviving spouses to use up to $300 from this benefit for financial counseling.

Tuition assistance for children of active and retired members has been increased by $250 to $1,500 annually. Tuition assistance for retired workers has also been increased by $250 to an annual benefit of $1,500.

The coordination of taxation and benefit payments for the dependent scholarship program has been addressed. Steps will be taken to ensure that active workers who choose the up-front tax option will have their tax liabilities appear on their paycheck at the same time the benefit is received. Additionally, past problems encountered with retiree W-2s will be corrected.

Training Programs

The union negotiated improvements aimed at improving the effectiveness of training programs designed for UAW-represented workers. New provisions allow for increased union involvement in the design, development and implementation of all training programs directed at UAW members.

Additional Joint Funds

The parties have agreed that in the event the amount of joint funds currently allocated are inadequate, the corporation will make available additional monies for the continued operation of joint activities.

Quality Network Enhanced

The parties recommitted themselves to the ongoing implementation of the UAW-GM Quality Network, GM's total quality management process, and have streamlined and updated Document 40, which provides the framework for the Quality Network.

Product Quality Resolution Process

A new accelerated procedure has been established for resolution of employee product quality concerns, spelling out detailed steps to assist in the full resolution of these concerns.

Quality Network Suggestion Plan

A major UAW achievement was reached with specific assurances that any and all suggestions that target the elimination of jobs will be ineligible for award consideration.

Under the proposed agreement, monetary suggestion awards may be directed to an employee's Personal Savings Plan (PSP) in accordance with PSP guidelines. This process will be implemented beginning on or before January 2005.

Newly added to the Suggestion Plan process is the involvement of the UAW-GM Health and Safety Representatives to ensure priority of all Health and Safety Suggestions.

In the area of Prior Management Consideration it was agreed that the corporation must provide evidence that planning and/or action existed prior to the employee's suggestion submission date.

Contract supervisors, like all salaried supervisors, will receive training in the Suggestion Plan process in order to properly administer the plan within their assignment.

Access to MAXIMO Data

A major breakthrough was gained in access to MAXIMO data. All Quality Network Planned Maintenance users will be allowed access to all MAXIMO data to fully perform their duties. MAXIMO data will not be used as a tool for disciplinary action or to outsource or subcontract work.

Planned Maintenance: "Best in Class"

In an ongoing commitment to Planned Maintenance activity, the parties have agreed that all plants will be required to attain Phase III status during the term of this agreement.

Vehicle Promotion and Vehicle Assistance

The parties agreed to cease the current Ambassador Program for GM and Delphi on Dec. 31, 2003. The new replacement program for GM only will be determined during the fourth quarter 2003. Ambassador points accumulated under the current program will be transferred for use under the nonmonetary recognition process of the Quality Network Suggestion Plan.

For GM only, currently designated "Ambassador Local Coordinators" and/or "Employee Vehicle Assistance Contact" (EVAC) will be combined and renamed "Vehicle Promotion and Assistance Coordinators" (VPAC).

Training, Guidelines for Quality Reps

In the proposed agreement, Quality Network Representatives will be required to achieve an advanced certification through an all-new curriculum will be recognized as Quality Professionals.

Newly appointed or assigned representatives will be required to receive an advanced certification for Quality Professionals and currently assigned or appointed Quality Network Representatives will be encouraged to enroll in this new training. This curriculum will be accomplished through a partnership with Wayne State University, in Detroit.

New Simulated Work Environment (SWE)

To accelerate the development and training in the Quality Network process, the corporation has committed to the creation and installation of a Simulated Work Environment (SWE) at the UAW-GM Center for Human Resources. The SWE will allow trainees to learn through the use of practical, hands-on exercises relevant to manufacturing in a safe controlled environment. Completion of the new SWE should be by midyear 2004.

Redeployment and Meaningful Work

New language concerning Quality Network's Implementation of Redeployment and Meaningful Work procedures has been added as part of the overall restructuring of Document 40.

Included in this provision is an agreement that the parties will conduct a survey at all plants and staffs to determine those locations requiring assistance in gaining compliance with this provision. The Group/Divisional Quality Councils will then work together to assure that all plants and staffs conduct a review of their current redeployment plan and make any necessary changes to their existing plan. Those locations that have no plan in place will be provided assistance in achieving a plan.

Corporate Commitment to Funding of Quality Network

A new feature within this agreement calls for the union to have an opportunity to review management's annual Business Deployment Plan at the Plant, Divisional and National levels. In the event that a funding issue arises during the term of this agreement, the union has the right to forward the matter through the Quality Council structure to the next level, up to and including the Co-Chairs of the Leadership Quality Council, for resolution.

UAW Delphi

Each UAW Delphi location will allocate resources to support full implemenation of the Quality Network.

Both the UAW and Delphi will have full access to the MAXIMO data. As at GM, it will not be used for disciplinary action, outsourcing or subcontracting.

APPLICATION FOR SEARCH AND CERTIFIED COPY OF BIRTH RECORD

State Form 49607 (R2 / 9-03)
Approved by State Board of Accounts, 2003
INDIANA STATE DEPARTMENT OF HEALTH

BIRTH RECORDS IN THE STATE VITAL RECORDS OFFICE BEGIN WITH OCTOBER 1907. Prior to October 1907, records of birth are filed ONLY with the local health department in the county where the birth actually occurred.

FEES ARE ESTABLISHED BY LAW (IC 16-37-1-11 and IC 16-37-1-11.5). Each search for a record costs $10.00. The fee is non-refundable. Included in one search is a 5-year period: the reported year of birth and, if the record is not found in that year, the 2 years before and after. A certified copy of the record, if found, is included in the search fee. Additional copies of the same record purchased at the same time are $4.00 each. Amendments made to the record are an additional $8.00.

WARNING: FALSE APPLICATION, ALTERING, MUTILATING, OR COUNTERFEITING INDIANA BIRTH CERTIFICATES IS A CRIMINAL OFFENSE UNDER IC 16-37-1-12.

IDENTIFICATION IS REQUIRED according to IC 16-37-1-7 (*e.g., photocopy of driver's license, work identification card, etc.*). Requests for birth certificates sent without proper identification will be returned to the requester without processing. Please complete all items below as required pursuant to IC 16-37-1-10 (a):

Full name at birth

Could this birth be recorded under any other name? If yes, please give name

Has this person ever been adopted? If yes, please give name AFTER adoption

Place of birth: City	Place of birth: County

Name of hospital

Date of birth	Age last birthday

Full name of father (*If adopted, give name of adopted father*)

Full name of mother including maiden name (*If adopted, give name of adopted mother*)

Purpose for which record is to be used

Your relationship to the individual named on the requested certificate

Total certificates Standard size: __________ Wallet size: ___________	Total fee(s)

Delivery preference
☐ Regular Mail ☐ Express Courier (*requires an additional fee*) ☐ Pickup ☐ Customer Waiting

Signature of applicant

Mailing address (*number and street, city, state, ZIP code*)

Daytime telephone number (*including area code*)	Today's date (*month, day, year*)

Send this application, check or money order payable to the Indiana State Department of Health, and a copy of your identification to: Vital Records, Indiana State Department of Health, PO Box 7125, Indianapolis, IN 46206-7125.

PRINT name and address of person to whom the certified copy is to be mailed if different than stated above.

Name

Mailing address (*number and street, city, state, ZIP code*)

FOR OFFICE USE ONLY

Date received (*month, day, year*)	Receipt number	Volume number

☐ Your fee of $ ___________ has been received and is being held pending receipt of information requested.

☐ Please remit additional fee of $ _____________.

A. The following individuals are eligible to receive a copy of a birth certificate:

1. Individual named on the certificate (*18+ years. If under 18 years of age, signature, ID, and telephone number of parent or legal guardian must be provided.*)
2. Mother of the individual named on the certificate.
3. Father (*if named, married to mother or paternity established*) of the individual named on the certificate.
4. Maternal grandparents of the individual named on the certificate.
5. Paternal grandparents of the individual named on the certificate if the father's name is on the record of birth.
6. Any individual presenting Guardianship Papers on the individual named on the birth certificate.
7. Brothers and sisters of the individual named on the birth certificate if both parties are over 21 years of age.
8. Maternal aunts and uncles of the individual named on the certificate.
9. Paternal aunts and uncles of the individual named on the certificate if the father's name is on the record of birth.
10. Spouse of the individual named on the certificate.
11. Son, daughter, or grandchild (*21 years of age*) of the individual named on the birth certificate.

B. The following information must be included in order for a search to be completed:

1. Full name, place, and date of birth, parents' full names, including mother's maiden name.
2. Written signature of applicant.
3. A photocopy of signature identification (*e.g., driver's license*) of the applicant. Do not send original identification by mail.
4. Return address and telephone number of applicant.
5. A check or money order payable to the Indiana State Department of Health for the correct fee(s).

C. Any additional questions may be directed to 317.233.2700.

FEES ARE ESTABLISHED BY LAW (IC 16-37-1-11 and IC 16-37-1-11.5). Each search for a record costs $10.00. The fee is non-refundable. Included in one search is a 5-year period: the reported year of birth and, if the record is not found in that year, the 2 years before and after. A certified copy of the record, if found, is included in the search fee. Additional copies of the same record purchased at the same time are $4.00 each. Amendments made to the record are an additional $8.00.

WARNING: FALSE APPLICATION, ALTERING, MUTILATING, OR COUNTERFEITING INDIANA BIRTH CERTIFICATES IS A CRIMINAL OFFENSE UNDER IC 16-37-1-12.

IDENTIFICATION IS REQUIRED according to IC 16-37-1-7 (*e.g., photocopy of driver's license, work identification card, etc.*). Requests for birth certificates sent without proper identification will be returned to the requester without processing. Please complete all items below as required pursuant to IC 16-37-1-10 (a):

APPLICATION FOR SEARCH AND CERTIFIED COPY OF DEATH RECORD

State Form 49606 (R2 / 9-03)
Approved by State Board of Accounts, 2003
INDIANA STATE DEPARTMENT OF HEALTH

DEATH RECORDS IN THE STATE VITAL RECORDS OFFICE BEGIN WITH 1900. Prior to 1900, records of death are filed ONLY with the local health department in the county where the death actually occurred. For deaths occurring from 1900 to 1917, the city and/ or county of death is required in order to locate the record.

FEES ARE ESTABLISHED BY LAW (IC 16-37-1-11). Each search for a record costs $8.00. The fee is non-refundable. Included in one search is a 5-year period: the reported year of death and, if the record is not found in that year, the 2 years before and after. For records prior to 1917, the search covers a 5-year period and only one county. A certified copy of the record, if found, is included in the search fee. Additional copies of the same record purchased at the same time are $4.00 each.

IDENTIFICATION IS REQUIRED according to IC 16-37-1-7, (*e.g., photocopy of driver's license, work identification card, etc.*) . DO NOT SEND ORIGINALS IN THE MAIL. Requests for death certificates sent without proper identification will be returned to the requester without processing. Please complete all items below as required pursuant to IC 16-37-1-10 (a):

Name of deceased*	Stillborn? ☐ Yes ☐ No

*(*If decedent was a married, divorced, or widowed woman, ISDH must have her legal name at the time of death. Please do not give the maiden name of a woman who changed her name by marriage during her lifetime.*)

Date of death

City of death	County of death
Total certificates	Total fee(s)

Delivery preference
☐ Regular Mail ☐ Express Courier (*requires an additional fee*) ☐ Pickup ☐ Customer Waiting

Date of birth of deceased (*if known*)

Name of father	Maiden name of mother

Your relationship to the individual named on the requested certificate

Purpose for which the record is to be used

Signature of applicant

Printed name of applicant

Mailing address (*number and street, city, state, ZIP code*)

Daytime telephone number (*including area code*)	Today's date (*month, day, year*)

Send this application, check or money order payable to the Indiana State Department of Health, and a copy of your identification to: Vital Records, Indiana State Department of Health, PO Box 7125, Indianapolis, IN 46206-7125.

Internet Sites for Genealogists

Compiled by Cynthia S. Rutledge
March 2003

Free Sites

Site	URL	Comments
Cyndi's List of Genealogy Sites on the Internet	www.cyndislist.com	Categorized & cross-referenced index to genealogical resources. Site contains 181,950 links & 150 categories. Very similar to a "card catalog." Hosted by RootsWeb.
American Family Immigration History Center Ellis Island	www.ellisislandrecords.org	Database contains over 22 million passengers & crew who entered the Port of New York between 1892 to 1924. Cooperative project between LDS, Statue of Liberty-Ellis Island Foundation and National Park Service.
Find A Grave	www.findagrave.com	Graves of famous and non-famous people with photos of tombstones
Geneaseek	www.geneaseek.org	GeneaSeek is a "full text" genealogy research browser. It goes through web to index pages that deal with genealogy. GeneaSeek comprises a few millions of genealogy pages. This browser is develop by GeneaNet.
RootsWeb	www.rootsweb.com	Oldest and largest genealogy site on the web. Hosts several other sites including Cyndi's List and US GenWeb. Merged with MyFamily.com, but is still independent and free.

Site	URL	Comments
US GenWeb Project	www.usgenweb.org	Volunteers maintain the site from every county of every state in the US. Organized by county then by state. Sponsors national projects and has online indexes & digitized records. Hosted by RootsWeb.
Vital Records Information	www.vitalrec.com	Listing of Vital Records addresses and access guidelines. Site by Elizabeth Orsay.

Government Sites

Site	URL	Comments
Civil War Soldiers & Sailors System	www.itd.nps.gov/cwss/	Database of information on Civil War soldiers & sailors including histories. Site is run by National Park Service
FirstGov Your First Click to the US Government	firstgov.gov	Free-access website designed to be centralized place to find information from local, state and US Government Agency web sites.
National Archives and Records Administration	www.archives.gov	NARA oversees the management of all Federal records. Learn what records available & how to order.
US Department of the Interior- Bureau of Land Management The Official Federal Land Patent Records Site	www.glorecords.blm.gov	Database access to Federal land conveyance records for the Public Land States. Image access for more than 2 million Federal land title records for Eastern Public Land States issued between 1820 and 1908.

Commercial Sites

Site	URL	Comments
Genealogy.com	www.genealogy.com	Joint partnership of 5 companies started in 1999. Includes web sites of Family Tree Maker, Genealogy Library, Genealogy Toolbox, Gen Forum, & Genealogy Book Shop. Includes software companion web sites for Ultimate Family Tree, Family Origins, Family Tree Detective and Family Tree Creator. Has free searchable databases, but must buy subscription to see actual data.
Heritage Quest	www.heritagequest.com	Largest genealogical data provider in US. Can purchase CDs, software and books. Owned by ProQuest.
Heritage Quest Online ***ONLY AVAILABLE AT DANVILLE PUBLIC LIBRARY***	www.heritagequestonline.com	Website is only available at libraries. As of October 2002, the site consists of two parts - books and census. Books has over 7000 family histories, 8000 local histories and over 150 primary sources. Census has images of 1790,1800, 1810, 1820, 1830, 1870 and 1910 federal census and indices for 1790, 1800, 1810 and 1870.
MyFamily.com	www.myfamilyinc.com	Site includes Ancestry.com, MyFamily.com and RootsWeb. Has free searchable databases, but must buy subscription to get some data.

Genealogical Libraries and Collections

Site	URL	Comments
Allen County Public Library Fred J Reynolds History & Genealogy Department	www.acpl.lib.in.us	Library is 4th on list of top ten genealogical resource centers. The genealogy department's collection contains more than 300,000 printed volumes and 306,000 items of microfilm and microfiche. Site has online catalog.
Danville Public Library	www.dpl.lib.in.us	Site has online catalog and genealogy links.
Earlham College Friends Collection	www.earlham.edu/~libr/quaker/	The Friends Collection is one of the four or five largest in the world. The collection includes an extensive collection of Quaker genealogical materials. Site has online catalog, descriptions of manuscript collection and searchable databases.
Family Search	www.familysearch.org	LDS (Mormon Church) Site with searchable databases including IGI.
Indiana State Library	www.statelib.lib.in.us	Site has online catalog. Searchable databases including pre-1850 marriage index, Indiana cemetery locator, manuscripts & newspaper. Links with Indiana libraries and other state libraries.
Indiana Historical Society William Henry Smith Memorial Library	www.indianahistory.org	IHS has the world's largest collection of materials on the history of Indiana and the old northwest. Site has online catalog and collection guide index.
The Library of Congress	www.loc.gov	The largest library in the world, with more than 120 million items on approximately 530 miles of bookshelves. The collections include more than 18 million books, 2.5 million recordings, 12 million photographs, 4.5 million maps, and 54 million manuscripts. Searchable online catalog.

Site	URL	Comments
The Library of Congress Local History & Genealogy Reading Room	www.loc.gov/rr/genealogy	The Library of Congress has one of the world's premier collections of U.S. and foreign genealogical and local historical publications. The Library's genealogy collection began as early as 1815 when Thomas Jefferson's library was purchased. The collections contain more than 40,000 compiled family histories and over 100,000 U.S. local histories. The Library also collects local histories from around the world. The site has online bibliographies and subject guides.
The Library of Congress American Memory - Historical Collections for the National Digital Library	memory.loc.gov	Provides digitized and transcribed historical documents to view on internet. Site offers more than 7 million digital items and more than 80 searchable multimedia collections.
The Library of Congress NUCMC - National Union Catalog of Manuscript Collections	lcweb.loc.gov/coll/nucmc	National free cooperative cataloging program. Database for archival and manuscript collections throughout the US. Online search started 1986/87.
National Society of Daughters of the American Revolution	www.dar.org	Site has free Patriot Lookup Service and DAR Library's online catalog.
Plainfield - Guilford Township Public Library Local and Indiana Information Department	www.plainfield.lib.in.us	Site has online catalog and local links. Searchable databases include cemetery indexes and obituary index.

Indiana Links

Site	URL	Comments
Access Indiana Official Web Site of the State of Indiana	www.in.gov/ai/ or www.ai.org	Site provides Indiana state government information. More than 180,000 pages of information are available.
Historic Landmarks Foundation of Indiana	www.historiclandmarks.org	Historic Landmarks Foundation of Indiana saves and restores irreplaceable architectural heritage. Site has information about their projects.
Indiana Genealogical Society	www.indgensoc.org	IGS was founded in 1988 and is run by volunteers. Site has information on the society, publications, projects and links.
Indiana Historical Bureau	www.statelib.lib.in.us/www/ihb/ihb.html	Site includes information on IHB publications and projects such as Indiana's Cemetery and Burial Grounds Registry and Indiana Historical Markers. Has searchable databases and some Indiana timelines.
Indiana in the Civil War	www.indianainthecivilwar.com	Website by Kristopher and Larry Ligget. Site includes Indiana Civil War history, Indiana regimental histories, letters, diaries and stories. Received Dorothy Riker Award for Innovation in History from Indiana Historical Society.
Indiana Pioneer Cemeteries Restoration Project	www.rootsweb.com/~inpcprp/	Website is a clearinghouse for information about indentifying, protecting, and repairing Indiana's pioneer cemeteries. Site run by Lois Mauk.
Indiana Soldiers in the Civil War	165.138.44.13/civilwar/	Website by Jerry Morris Mounts which lists information about Indiana soldiers who served in the Civil War.

Site	URL	Comments
Indiana Soldiers in the Mexican War	165.138.44.13/mexican/	Website by Jerry Morris Mounts which lists information about Indiana soldiers who served in Mexican War.
Indiana Soldiers in the Revolutionary War	165.138.44.13/revoluti/	Website by Jerry Morris Mounts which lists information about Indiana soldiers who served in Revolutionary War.
Indiana Soldiers in the Spanish-American War	165.138.44.13/spanamer/	Website by Jerry Morris Mounts which lists information about Indiana soldiers who served in Spanish American War.
Indiana State Archives	www.state.in.us/icpr/archives/	The Indiana State Archives is the official repository of Indiana government records of permanent historical and legal significance. It principally contains records generated by state government and state agencies, but also holds a major collection of county and local government records.
Villages, Cities, Towns, Townships, Counties, and Post Offices in Indiana	165.138.44.13/citytown/	Website by Jerry Morris Mounts which lists names of villages & towns in Indiana and tells what county they are in. Site particularly useful for places that don't exist anymore.

Subject: Re: Family Tree

WOW, I am really finding this very neat. I just started researching a few days ago and have already found a lot of names and information for both sides of my family and would love to hear & learn more.

My name is Christopher Robertson my wife is Darla Terrell(recently married). Mason Adams is my great-great-grandfather. My great-grandmother is Pearl M. Adams(Robertson). My grandfather is her son Allen Lee Robertson Sr.

Would love to hear from you guys and possibly meet you someday.

Chris Robertson
12 W Vine Ave
Charleston, IL 61920

217-345-6286

I work third shift so early mornings and evenings best time to be reached.

John,

My husband, Andrew Fish, is related to your wife. He was a 1st cousin, 4 times removed to Almira Fish. I would be interested in her lineage, if you wouldn't mind sharing!! Please let me know if there is anything I can do for you!!!

> I am married to Mary Catherine Stigall. Her Great Great Grandparents were: James Jefferson Stigall & Almira (Alvira) Fish. Almira's parents were John & Mary (Hiatt) Fish. Could she also be related to you??? My Great Grand parents : Christopher & Martha (Adams) Baker were married at Mt Vernon. My roots are from the same area. My Granma Beachie Baker was born at Crab Orchard Along with Mary's Dad. Morris Allen Stigall.Scarboroughs are in my family too.
